# SATRAJIT SUJIT GHOSH

*Curriculum Vitae*

McGovern Institute for Brain Research 617.324.3544
43 Vassar St, 46-4033F satra@mit.edu
Cambridge, MA, 02139 *http://satra.cogitatum.org*

## Degrees
PhD, Cognitive and Neural Systems, Boston University, 2005, Prof. Frank Guenther
B.S. (Honors), Computer Science, National University of Singapore, 1997, Prof. Lonce L. Wyse

## Employment
Principal Research Scientist, McGovern Institute for Brain Research, MIT, 2015 – Current
Assistant Professor, Department of Otology and Laryngology, Harvard Medical School, 2014 – Current
Research Scientist, McGovern Institute for Brain Research, MIT, 2011 – 2014
Research Scientist, Research Laboratory of Electronics, MIT, 2007 – 2011
Postdoctoral Associate, Research Laboratory of Electronics, MIT, 2004 – 2007, Dr. Joseph S. Perkell
Software Engineer, Kent Ridge Digital Labs, Singapore, 1997-1998

## External Positions held
Massachusetts Eye and Ear, Harvard Medical School, 2014 – Current, Research Associate
Speech and Hearing Biosciences and Technology, (now in) Division of Medical Sciences, Harvard Medical School, 2008 – Current, Member of the Faculty
Editorial board, Frontiers in Brain Imaging Methods, 2012 – Current, Associate Editor
Standards for Datasharing Taskforce, International Neuroinformatics Coordinating Facilities, 2010 – Current
Executive board, TankThink Labs, LLC, 2011 – Current
Department of Cognitive and Neural Systems, Boston University, 2005-2010, Research Fellow

## Honors
Educational stipend, International Society for Magnetic Resonance in Medicine, 2008
Graduate Teaching Fellow Award, Boston University, 2000
Presidential University Graduate Fellowship, Boston University, 1998

## UROP Students supervised
Alkhairy, Samiya, Fall, 2009, Spring 2010
Zhang, Mark, Spring 2012
Ung, William, Spring 2012

## Ph.D. Students Supervised
Sitek, Kevin, in progress
Ciccarelli, Gregory, in progress

## Teaching experience
6.541, Speech Communication, Spring 2009, 2011, 2012, 2013, 2014

6.551, Acoustics of Speech and Hearing, Fall 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014

**Service**

*Internal service:*

Admissions committee, Speech and Hearing Biosciences and Technology Program (HST), 2010 – Current

Curriculum committee, Speech and Hearing Biosciences and Technology Program (HST), 2009 – Current

*External service:*

Associate Editor, Frontiers in Brain Imaging Methods, 2012 – Current

Review editor, Frontiers in Neuroinformatics, 2011 - Current

Ad hoc grant reviewer

    National Science Foundation, 2008, 2010, 2013

    National Medical Research Council, Singapore, 2007, 2009, 2011-2012

    Department of Defense, 2011

Ad hoc editorial reviewer

    Biological Psychiatry, Brain, Brain and Language, Current Biology, European Journal of Neuroscience, Frontiers in Computational Neuroscience, Frontiers in Systems Neuroscience, Frontiers in Neuroinformatics, Human Brain Mapping, Journal of the Acoustical Society of America, Journal of Neuroscience, Journal of Speech, Language and Hearing Research, Magnetic Resonance in Medicine, NeuroImage

Editorial board, Special Research Topic, Python in Neuroscience, Frontiers in Neuroscience

Nipype teaching workshops, Edinburgh 2011, Magdeburg 2012

Speaker, Educational workshop, Organization for Human Brain Mapping, Seattle, 2013

Organizer, HBM Hackathon, Organization for Human Brain Mapping, Seattle, 2013

Local organizing committee, 4th Biennial Conference on Resting State Connectivity, Boston, 2014

**Technological and Other Scientific Innovations**

| | |
|---|---|
| Nipype: Brain imaging analysis framework 2008- | Gorgolewski K, Burns CD, Madison C, Clark D, Halchenko YO, Waskom ML, Ghosh SS. (2011). Nipype: a flexible, lightweight and extensible neuroimaging data processing framework in Python. Front. Neuroimform. 5:13. |
| | Nipype provides an environment that encourages interactive exploration of algorithms from different packages (e.g., SPM, FSL, FreeSurfer, Camino, MRtrix, AFNI, Slicer), eases the design of workflows within and between packages, and reduces the learning curve necessary to use different packages. I continue develop and oversee the development of the software, funded initially through an R03, as an opensource collaborative project. |
| MURFI: a realtime MR biofeedback software 2007- | Hinds, O., Ghosh, S., Thompson, T.W., Yoo, J.J., Whitfield-Gabrieli, S., Triantafyllou, C., Gabrieli, J.D. (2011) Computing moment-to-moment BOLD activation for real-time neurofeedback. Neuroimage. 54(1):361-8. PMID: 20682350. |
| | This software framework allows biofeedback of activation based on the BOLD signal. I provided that testing and validation framework for the software and contributed to its design and implementation. We are now using this software for three ongoing projects and I have secured additional funding to continue its development. |

| | |
|---|---|
| Realtime voice modification setup 2005-2007 | Cai, S, Boucek, M, Ghosh, S.S., Guenther, F.H., Perkell, J.S. (2008) A System for Online Dynamic Perturbation of Formant Trajectories and Results from Perturbations of the Mandarin Triphthong /iau/. International Seminar in Speech Production, Strassbourg, France.<br>This system was initially implemented on a Texas instruments DSP board and later transferred to a solution that involved commodity ASIO capable sound cards and a standard software stack based on RtAudio. |
| Noise suppression for MRI patient microphone input 2004-2005 | Two provisional patents were applied for but not pursued after expiry.<br>2007    Online noise suppression software for Magnetic Resonance Imaging<br>2007    Bidirectional noise suppressing communication setup for Magnetic Resonance Imaging<br>The goal of this software was to provide a mechanism to suppress MR noise. This is still being used in research projects at MIT. |
| Carotid artery diameter estimation from ultrasound images 1999-2000 | Current usage status is unknown. I built the graphical interface for the software to provide a semi-automated method for artery diameter estimation that reduced human intervention significantly and validated it against manual measurements. |
| FlexEffex: Interactive sound effects and music 1997-1998 | I contributed to the development of the FlexEffex architecture and rewrote the internal sound effects plugin api and hardware libraries. The software was subsequently sold to a company, MindMaker Inc. |

## Publications

1. Guenther, F.H., Nieto-Castanon, A., Tourville, J.A. and **Ghosh, S.S.** (2001) The effects of categorization training on auditory perception and cortical representations. Proceedings of the Speech Recognition as Pattern Classification (SPRAAC) Workshop, Nijmegen, The Netherlands.
2. Guenther, F.H. and **Ghosh, S.S.** (2003) A model of cortical and cerebellar function in speech. Proceedings of the XVth International Congress of Phonetic Sciences (pp. 169-173). Barcelona, Spain: 15th ICPhS Organizing Committee.

(\* Joint first authors)

**Conference abstracts** (available upon request)

**Invited Presentations**

*Linking Knowledge and Reproducible Research Via Standardized Provenance Models*
> Tools for Integrating and Planning Research in Neuroscience, UCLA, Los Angeles, USA, 2014

*A Neuroinformatics Bridge to Personalized Healthcare*
> Boston University, Hearing research seminar, Boston, USA, 2014
> Vanderbilt University, Nashville, USA, 2014

*Enabling knowledge generation and reproducible research by embedding provenance models in metadata stores*
> Neuroinformatics Congress, Stochkholm, Sweden, 2013

*Python Tools for Reproducible Research in Brain Imaging*
> PyData conference, Boston, USA, 2013

*Nipype: Opensource platform for unified and replicable interaction with existing neuroimaging tools*
> Brigham and Womens Hospital, Boston, USA, 2009
> Massachusetts General Hospital, Boston, USA, 2010, 2012, 2013
> Radiology, U of Washington, Seattle, USA, 2011,
> PICSL, U of Pennsylvania, Philadelphia, USA, 2011
> Scientific Python Conference in India, Hyderabad, India, 2010
> INCF Datasharing Workshop, Quebec, Canada, 2011
> Python in Neuroscience Workshop, Paris, France, 2011

*Leveraging scientific computation to bridge neuroimaging and clinical applications*
> Radiology, U of Pennsylvania, Philadelphia, USA, 2011
> Haskins Laboratories, New Haven, Connecticut, USA 2012

*Datasharing and reproducible research: Barriers and solutions*
> Janelia Farm Bioimage Informatics II Conference, Washington DC, USA, 2011
> University de Montreal, Montreal, Canada, 2013

*Using high-resolution fMRI to identify individual-specific speech motor regions*
> Surgical Brain-Mapping laboratory, Brigham and Womens Hospital, Boston, USA, 2010

*Region of interest analysis of functional Magnetic Resonance Imaging data*
> New York State Psychiatric Institute, Columbia University, New York, USA, 2007
> Singapore General Hospital, Singapore, Singapore, 2007

*Exploring speech motor control through computational modeling and neuroimaging*
> Center for Life Sciences, National University of Singapore, Singapore, 2007
